

The background of the image is a vibrant, stylized illustration of a game arena. In the center, a large, white phoenix with pink and red accents is perched on a stone pedestal. Behind it, a panda character is visible, and in front of the phoenix are two smaller, more monstrous-looking creatures, one orange and one blue. A large, glowing golden sphere with a crackle effect is positioned behind the phoenix. The arena floor is green with a circular pattern. In the background, there are stone pillars and lush jungle foliage under a dark, starry sky.

KABY ARENA

Free-to-play and Play-to-earn

First game to include crypto market fluctuations into gameplay

Chess Ziga Online
(Web, Android, IOS)

The peaceful world of Kaby was invaded by the evil force of the Dark Lord. Our heroes united together and vowed to fight against the enemy to bring peace back to this beautiful land. However, the prolonged war brought irreversible damage to the world. Both sides agreed on a series of tournaments: the winner will take the full control of Kaby World.

Being an insightful leader, you will assemble a team of talented heroes to win the tournaments. Your heroes possess the power of one of the 5 elements: Fire, Wind, Water, Light and Darkness and master sets of unique skills.

MISSIONS

Free-to-play

NFT games should be accessible for every gamer!

Assets for rent

Enable users to rent out their assets with high credibility.

Crypto war

Predict the market fluctuations correctly to gain in-game advantages.

Play-to-earn

Gaming is not only for fun, you can make real money!

WHY FREE-TO-PLAY?

Popular NFT games: low active users, too costly to start playing.

CRYPTO WAR

- Reward players for engagement with the cryptocurrency market.
- A leverage for F2P player to accelerate faster in game.
- Educate & raising awareness for players unfamiliar with cryptocurrency.

STAKING AND RENTING

Staking

- Stake Kaby token for interest.
- Stake NFT units for in-game rewards.

Renting

Rent out NFT for other players through different methods:

- Using game provider Ziga as trusted third party, doesn't require collateral.
- Trustless peer to peer between two players, using collateral and smart contract.

PLAY-TO-EARN

Players start with basic non-NFT heroes. By playing, they can collect materials, armors and loot-boxes.

Free heroes & armors can be minted into NFT using Kaby tokens.

Auction house for heroes & other collectibles.

NFT heroes can be bred together to spawn offsprings that inherit powerful traits from parents.

Waging: Players can win Kaby tokens by waging against other players in PvP mode or by winning tournaments.

KABY TOKENS

Exchange for gold for in-game upgrades.

Speed up time-gated content.

Mint NFT from in-game heroes/items.

Buy/rent NFT assets.

Open loot-boxes.
